

cultural funding guide

belgium ↔ the netherlands

Kingdom of the Netherlands

DutchCu | ture

This booklet provides a guide of cultural funding opportunities for Dutch–Belgian cultural cooperation. It was created for the symposium *Entrepreneurship and Funding in the Dutch and Belgian Cultural Sector* on February 7, 2024, organised by the Embassy of the Kingdom of the Netherlands in Brussels in collaboration with DutchCulture, the Dutch network organisation for international cultural cooperation.

After an introduction by the Dutch Ambassador for International Cultural Cooperation, Dewi van de Weerd, researcher and publicist Renée Steenbergen guided the audience through the landscape of funding systems in the Netherlands, and the opportunities and pitfalls of public-private partnerships. For several decades, the Dutch cultural sector has been actively combining private and public resources with the aim to support artists and creatives.

The main objective of this booklet is to inform the Belgian and Dutch cultural sectors on funding bodies and programmes that support the cultural collaboration between Belgium and the Netherlands. The overview focuses on funding that stimulates:

- # cultural projects by Netherlands-based creatives taking place in Belgium;
- # cultural collaborations between the Netherlands and Belgium taking place in Belgium.

Important note: Some grants in this booklet are also available to organisations and creatives based in the Caribbean Netherlands. Oftentimes, more budget than indicated in this overview is available for cultural collaboration between the Caribbean Netherlands and Belgium, since for example travel costs are higher. Please check the website of the grant provider and scan the QR code of the particular grant for more information.
